

Kaigai Shinja Benkyōkai in USA

Lectured by ***Tomomarukō Sensei***

Shinji

Strive to be the person (shinja) who learns and deepens their understanding of the truths, the principles of life.

The more this thought deepens, the kokoro (life) of all (shinja) will accept the changes, move with the flow and live.

In-person meetings in US and Canada have resumed from March 2023, and *Kaigai Shinja Benkyōkai*, a lecture given by *Tomomarukō Sensei* will be held this year in the US. This is a great opportunity where we can directly learn from *Tomomarukō Sensei* based on the latest *Shinji* shown exclusively for members living overseas.

Kami foresees the future and shows us *Kami's* word that teaches us the kind of *kokoro* we should have and ways of life necessary to live the here and now. The word is guiding principles that are essential for us to live days filled with happiness. The more we share and live based on *Kami's* teachings with family members, the more we will be saved and get closer to happiness.

Please join the lecture with family members and take this opportunity to achieve happiness and prosperity.
